

A scenic landscape featuring a large body of water in the foreground, a row of traditional red wooden houses with white window frames and green roofs, and snow-capped mountains in the background under a cloudy sky.

Stora generativa språkmodeller för svenska

2000-2010: proto-språkmodeller på SICS

2017: Transformer-arkitekturen introduceras

2018: de första Transformer-baserade språkmodellerna (GPT, BERT)

2019: språkmodeller för svenska myndigheter (Vinnova)

2020: den första LLMen publiceras (GPT-3)

2021: NLU-gruppen på AI Sweden

2022: den första LLMen för nordgermanska språk: GPT-SW3

2023: GPT-SW3 släpps som 'open weight'

Varför bygga svenska LLMer?

- Kompetens
- Transparens och representativitet
- Resiliens och suveränitet
- Demokratisering

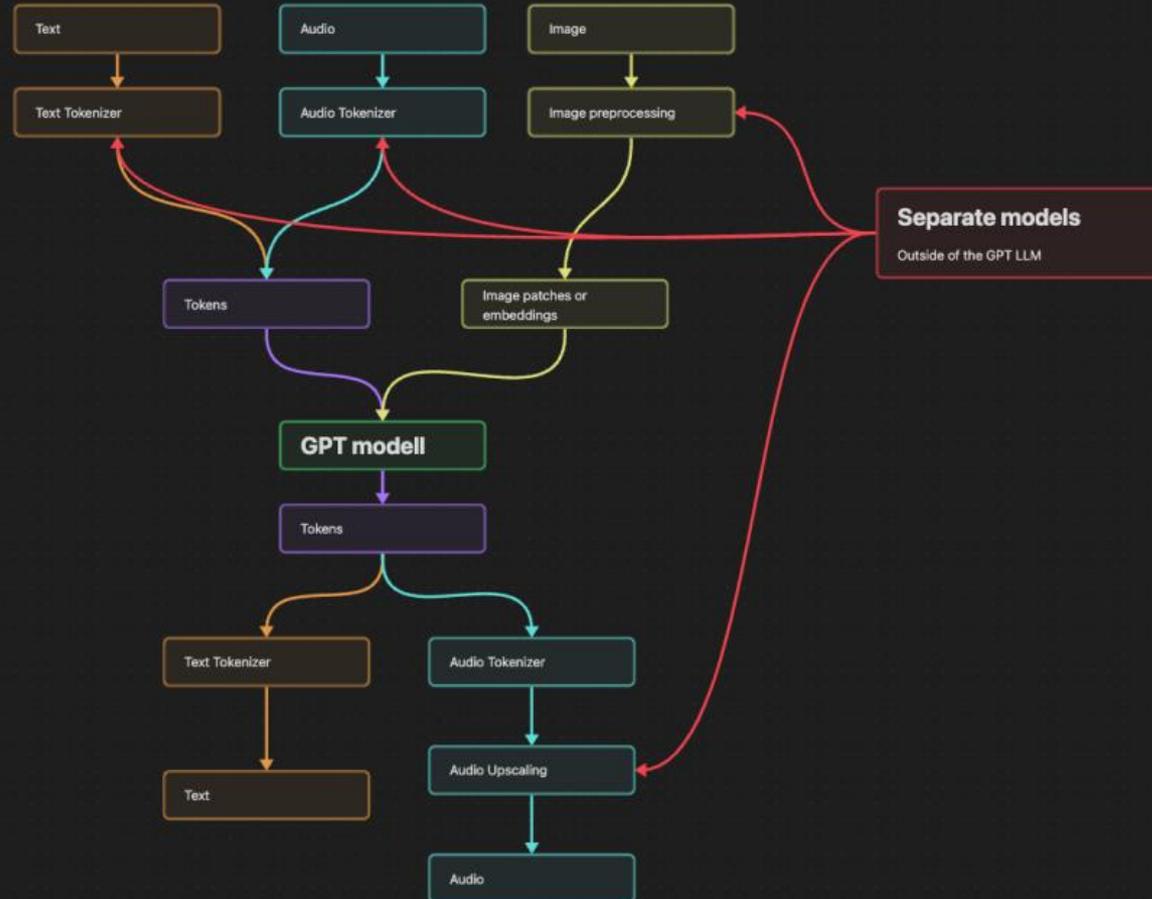

Varför bygga svenska LLMer?

- Kompetens
- Transparens och representativitet
- Resiliens och suveränitet
- Demokratisering
- **Existerande modeller är inte jättebra på svenska!**

Stegen efter GPT-SW3

- Anpassa öppna modeller till svenska (ex Mistral/Llama3)
- **Multimodalitet och generell kapacitet**
- Internationella samarbeten (EU-projekt)

Multimodal model

DeployAI

30M EUR 2023-2027

Bygga, distribuera och lansera en fullt fungerande AI-On-Demand-plattform som främjar trovärdiga, etiska och transparenta europeiska AI-lösningar

AI Sweden: tillhandahålla och finjustera modeller för svenska (et al)

DeployAI

Coordinator: Fraunhofer Institute for Intelligent Analysis and Information Systems (IAIS), Germany

Partners:

- AALTO University, Finland
- Aspect Partners, Germany
- European Centre for medium-range Weather Forecast, United Kingdom
- Convotis Services, Austria
- Hellenic Telecommunications Organization S.A (OTE), Greece
- Croatian Artificial Intelligence Association, Croatia
- National Centre for Scientific Research "Demokritos", Greece
- EIT Digital, Belgium
- DIMECC, Finland
- F6S Network, Ireland
- Bruno Kessler Institute, Italy
- FIWARE Foundation, Germany

- German AI Association, Germany
- Hub France IA, France
- IONOS SE, Germany
- LIGHT ON, France
- LuxProvide SA, Luxembourg
- Science For You (SciFY), Greece
- Silo AI, Finland
- AI Sweden, Sweden
- VDE – Association for Electrical, Electronic & Information Technologies, Germany
- Institute of Communication and Computer Systems (ICCS), Greece
- CSC- IT Center for Science, Finland
- Arcada University of Applied Sciences, Finland
- Örebro University, Sweden
- Technical University of Denmark - DTU, Denmark

Associated Partner: ADRA - The AI, Data and Robotics Association

Eurolingua GPT

En ny basmodell för de Europeiska språken

Samarbete AI Sweden och Fraunhofer IAIS

Extreme scale access: 8.8 miljoner GPU-timmar

MareNostrum5: 4480 H100 GPUer

Data Management for TrustLLM

Danila Petrelli - Senior Data Manager NLU @AI Sweden

Harmonizing Strategies

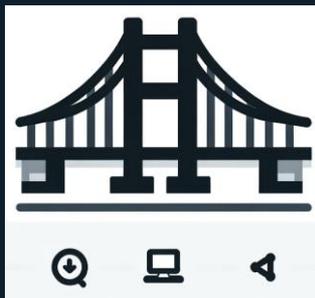

- Data standards and formats
- Ethical and legal compliance
- Data sharing and access policies
- Security measures
- Long-term preservation and sustainability

Data Management Plan(s)

- Cohesive approach to managing the vast amounts of data
- Ensuring that all data is handled in a way that promotes transparency, open science and builds a solid foundation for trustworthy AI models
- FAIR principles: making sure data is Findable, Accessible, Interoperable, and Reusable.

Documentation

Why?

- Transparency and accountability
- It provides a clear record of the data used, the design and operation of AI systems and the measures taken to mitigate risks.
- Essential for compliance with regulations

Our Plan

- Have recurring workshops
- Reach internal understanding
- Identify challenges
- Engage with leading people in the field
- Establish best practices for trustworthy data management
- Document!

Challenges

- Legal compliance
- Transparency

Key Learnings in Data Management

Collaboration is key

Consistency matters

Adaptability is crucial

Documentation cannot be underestimated

Thank you!
